Snap, Crackle, Pop! **June 2011**

Dear Lellbach,

Do you wish you could light a firecracker in your home and start over? I know I have often looked for that magic firecracker. While, sometimes as easy as "**Snap, Crackle, Pop**", remodeling your home can give your family new found freedom & enjoyment for years to come!

The Buddingh's home took on a whole "**Snap, Crackle, Pop**" of it's own! The newly remodeled first floor is the perfect setting for relaxation, entertaining, family gatherings and fireworks of it's own! ([Click here for album](#))

Hope you find the "**Snap, Crackle, Pop**" in your home this holiday!
