## Leave Your Mark!

SEPTEMBER  
2011

Dear Lellbach,

These last few days have reminded us that summer's last hurrah is eminent. Fall is slowly getting ready to leave it's impression as we experience the shifting of the seasons. The steady changing of the leaves provides the perfect example of how mother nature quietly leaves her "Mark" - *Unique, Spectacular and Memorable!*

Just like mother nature, we leave the "Marks" of who we are throughout our homes! Kitchens provide the perfect backdrop to reflect our family's personality and attitudes. As the pulse of many homes, kitchens create & reflect the environments that allow us to be ourselves.

Forever the changing leaf, back splashes can be the canvas that reflects your family's individual personality. Without shouting, "Look at Me", these back splashes mirror each family's unique, spectacular and memorable "Mark". [\(click here for photo album\)](#)

***Leave your Mark- Unique, Spectacular and Memorable!***
