"Sit up and pay attention! There are some really pet friendly inspired details in this kitchen remodel.

Designing a floor with pattern takes the ordinary out and puts the bow WOW in. I like the clear direction to the door for my daily yard patrols. The painted cabinets, timeless in design, create a great contrast to the floor for easy wandering. The double oven placement is perfect. It allows me to keep an eye on what's cooking and keep lost dogs out. Best of all is the generous access around the sink & recycling area. There is clear vision all around with plenty of room to grab a random treat. Hey, how about lowering the counters so I can help with cooking?

Overall, I give this kitchen 3 PAWS for function & 3.5 PAWS for style! "
