

LELLBACH BUILDERS PRESENTS 2013 KITCHEN DESIGN TRENDS

5 Hot Kitchen Design Trends

- 1. [It's all about Workstations](#). The traditional kitchen "triangle" work model is shifting to a focus on workstations. Creating your kitchen workstations around your activity -- cooking, steaming, communicating, etc. is key. [Check out Photos](#).
- 2. [Think Open Floor Plan](#). It's time to make your kitchen the center focus of your home, integrating it with adjoining rooms. Removing walls and adding seating space can give your kitchen a family-room-meets-kitchen feel and give your whole family a place to gather.
- 3. [What's good for the world is good for you too!](#) Eco-smart materials and products are not only designed for convenience but also designed to last. From counter tops, to flooring materials and cabinets, there is an abundance of green choices for every part of your kitchen remodel.
- 4. [Get Smart](#). Smart appliances are a key category that has exploded with intelligent, efficient cooking preparation choices. Steam cooking, induction cooking, cook top modules are only the beginning.
- 5. [Be Classic](#). Aim for classic style choices that will you won't tire of easily. The trends towards clean line, integrated cabinetry & appliances and neutrals with a pop of color allow for the the focus to be on your health, family and friends. Create the space that everyone loves – the heart of you home!
